THE OHIO STATE UNIVERSITY
COMPREHENSIVE CANCER CENTER

April 28, 2015

We are pleased to announce that the Ohio State University TTP Research Program will again be holding a patient support group meeting on the campus of the Ohio State University Medical Center. The goal of the meeting is to provide a forum for patients and their family/friends to discuss on an informal basis any questions related to their previous diagnosis and treatment for thrombotic thrombocytopenic purpura (TTP) or atypical HUS, a condition closely related to TTP.

We will be holding the meeting at the same location as the meeting in the Fall of 2014. The meeting will be held on June 2nd, in room 115 of the Biomedical Research Tower on the Ohio State University Campus. The address of the building is: 460 W. 12th Ave. in Columbus, Ohio. Parking garages for the meeting can be found in the North Cannon Garage (1640 Cannon Dr.) or the 12th Ave. Garage located at 340 W 12th Ave. Parking passes to cover the cost of the parking will be available to you at the meeting.

The meeting will begin at 5:00 PM, with dinner being served beginning at 5:30pm. Please feel free to pass this invitation along to others who may be interested in attending the TTP Patient Support Group meeting. We only ask that you RSVP by Monday May 25th, 2015 to enable us to prepare for the number of participants at the meeting. Please contact Linda Young by email (Linda.young@osumc.edu) or phone (614-293-2887) to RSVP for the meeting.

Please contact us if you have any additional questions. We look forward to seeing you at the meeting in October.

Sincerely,

A Comprehensive Cancer
Center Designated by the
National Cancer Institute

Ohio State is a Comprehensive Cancer Center designated by the National Cancer Institute.
